

### **Did You Know?**

A person desiring to construct a concrete curbing around the family gravesite is allowed to do so by the City of Hondo. This process is permitted so that family members can dress up the cemetery plots of deceased family members.

All the City of Hondo asks is that the following requirements be met: That the cemetery plot be properly marked, that a permit be submitted, approved and paid for with the City of Hondo, that the Parks Department be notified at 830-426-4900 prior to and completion of the project and that all construction debris and trash be picked up and properly disposed.

If you have any questions or require more information, please call the City of Hondo, Code Compliance Office at 830-426-4737.
